

The age profile of OOP health spending is stable across survey waves

Estimated individual quarterly OOP health spending (NTA-style allocation), constant Aug–Nov 2024 pesos

Source: ENIGH 2018–2024, Tier 3 NTA-style allocation (ENSANUT 2018 utilization weights for ENIGH 2018/2020; ENSANUT 2024 weights for 2022/2024). 2020 is pandemic-affected: fieldwork Aug–Nov 2020, with suppressed utilization and elevated COVID-related spending; treat its level with caution. Out-of-pocket spending only; public in-kind provision (IMSS/ISSSTE/SSA services) is not included. Constant Aug–Nov 2024 pesos (general INPC).
